# Does Vireo<sup>3</sup> Make Sense For You?

Vireo<sup>3</sup> provides the solution to numerous challenges within the cleaning operation. If any, or all, of the below resonate with your goals then keep reading.

## Consolidate your cleaning products

①

Reduce your cleaning products by up to 70%.

②

Reduce administration and stockholding associated with multiple products & suppliers.

## Reduce product waste

①

A simple mobile dosing system, ensuring easy controlled dosing.

②

Reduce cleaning needs due to the continuous working of probiotics.

## Improve your sustainability credentials

①

Significantly reduce single-use-plastics.

②

Natural ingredients sourced from chicory root.

③

Safe for aquatic life.

④

Positively impacts your spaces and the waterways.

## Reduce hazards and risks

①

Vireo<sup>3</sup> is a non-toxic solution.

②

No residues or biofilm left behind.

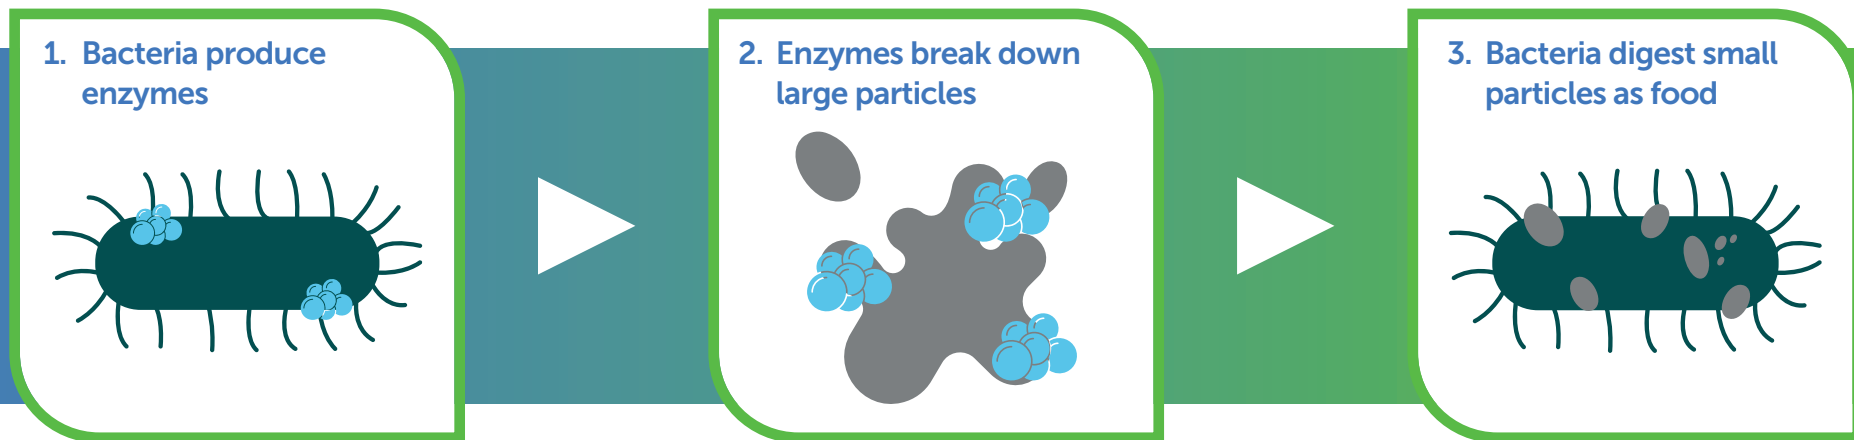

③

Simplified and standardised safety training.

# What are Probiotics?

Vireo<sup>3</sup> has been developed with probiotics, a unique synthesis of probiotics and an effective non-toxic cleaning agent, providing a long-lasting and deeper cleaning effect.

## How does it work?

**1.** Probiotics (good bacteria) within the solution produce enzymes that **2.** break down dirt into tiny particles, the good bacteria then **3.** feed on these tiny dirt particles and digest them as food. Vireo<sup>3</sup> is applied in the same way as any other cleaning agent however, they have the advantage that probiotics continue to function for days after cleaning.

## The results

A microscopic deep clean and long-lasting absorption of odours.

# Who Benefits from Vireo<sup>3</sup>?

## Working with nature and not against it.

- ✓ By applying **good bacteria** to surfaces, it will feed on filth meaning continuous cleaning.
- ✓ **Microscopical cleaning**, purifying down to the deepest pores.
- ✓ An **environmentally beneficial** solution that positively impacts our waterways and the spaces.

## What does it replace?

Streamline administration and inventory management by consolidating products and suppliers. Reducing your cleaning products by up to 70%.

## Applications

- |                   |         |               |
|-------------------|---------|---------------|
| ✓ Floor           | ✓ Vinyl | ✓ Tables      |
| ✓ Stone           | ✓ Walls | ✓ Hand Rails  |
| ✓ Marble          | ✓ Sinks | ✓ Glass       |
| ✓ Ceramic         | ✓ Taps  | ✓ Mirrors     |
| ✓ Stainless Steel | ✓ Seats | ✓ and more... |

## Did you know?

Probiotics originate from soil and water, when they eventually end up in the wastewater, they will actively contribute to wastewater treatment.

# The Vireo<sup>3</sup> Range

## Multi Surface Cleaner 1L

Vireo<sup>3</sup> probiotic all-purpose cleaner for daily use on all water-resistant surfaces.

- ✓ Low foaming all purpose cleaner
- ✓ Cleans surfaces and actively combats odours
- ✓ Minimum of 50 million probiotics/ml
- ✓ Fresh perfume
- ✓ For cleaning water-resistant surfaces, interior floors and sanitary environments
- ✓ pH7

## Toilet Cleaner 750ml

Vireo<sup>3</sup> probiotic toilet cleaner for daily use on washroom surfaces and for actively combating odors.

- ✓ Ready-to-use toilet cleaner
- ✓ Prevents limescale and blockages
- ✓ Mildly acidic formula
- ✓ Cleans surfaces and actively combats odours
- ✓ Fresh pine fragrance
- ✓ pH3

## Atomiser Spray Bottle 300ml

Vireo<sup>3</sup> fine atomiser spray bottle. Ideal for creating a fine misting spray for maximum even coverage.

- ✓ 300ml reusable atomiser spray bottle
- ✓ Provided complete with label

## Dosing Cap 10ml

The Vireo<sup>3</sup> dosing cap ensures accurate 10ml measures for simple and manageable dosing.

**Chespack**  
Hygiene

**Making the transition over to Vireo<sup>3</sup> has been well received by both the cleaning team and clients who are looking to positively impact their environmental credentials.**
